

Quit Smoking It's Never Too Late

[A boy and a girl are running to their grandfather.]

Grandfather said: I love my grandkids.

Grandfather said: Watching them grow day by day...

Grandfather said: Before you know it, they'll be graduating from university.

Grandfather said: I always wished that I could live to see that day.

Grandfather said: My doctor said 'Don't just wish, take action. Quit smoking, because it's never too late!'

Grandfather said: So, I quit.

Grandfather said: My health is better... And now I can even run around with them

Grandfather said: Quit smoking. It's never too late.

[The screen displays a message: Quit smoking. It's never too late.

I love smoke-free Hong Kong
